Wireframes

Wireframe (Under Webpage Design) in my webpage

Final Design (Under Webpage Design) in my webpage

Design elements in my webpage

- In Logo Design, used Myriad Pro as font
- The font size of the word is 109pt
- M stands for Macor (My first name)
- Y stands for Yuen (My last name)
- The arrow goes up refers to keep fighting, and keep going progressively in life
- Arrow goes down refers “Be Water”, be flexible
- The whole arrow things mean keep going progressively with flexibility in a life cycle

Design elements in my webpage

Colours I used in my webpage

#554848 as background colour

#FFFFFF as foreground colour and texts

#C15D46 as users current location on global navigation

#94FFB9 notify the links that users will precede on global navigation, and anchor links and associative links

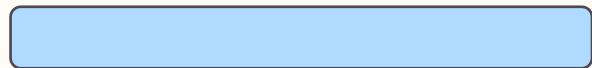

#F7B2B3 as users current location on local navigation and texts

#7E17AD as notify the links that users will precede on local navigation

#808080 as background colour of local navigation

#aedbff as background colour in Terms and Condition

Design elements in my webpage

Font selection

- Imported two fonts from Google Fonts
- Permanent Marker in Homepage and Slabo 27px in About Me
- Arial are used in global navigation, and local navigation

Accessibility and Usability

- All the functions on the webpage could be used “tab” over
- Anchor and associative links do not open a new windows to proceed
- The background and foreground colour of my webpage pass the contrast test of WCAG AA and WCAG AAA

Contrast Checker

- All images have the same dimension.
- The width and height of the images are : 480px x 500px

Final Visual & Graphic Design

18.) Terms and Conditions

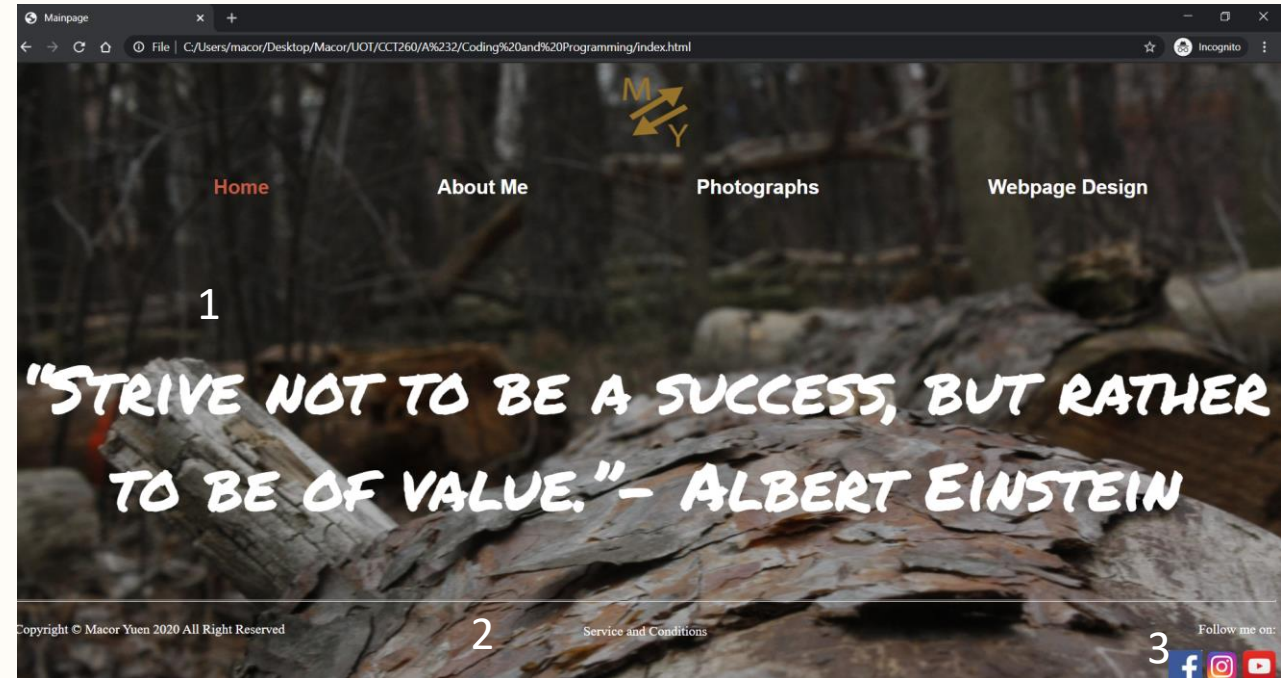

Differences between in Visual Design & Final Website

Pending Version

Final Version

1.) The font I used in quotation changes because using regular font looks normal as on the left

- Using special font on the right makes more attractive

2.) The colour of font changes from pink to white in footer navigation

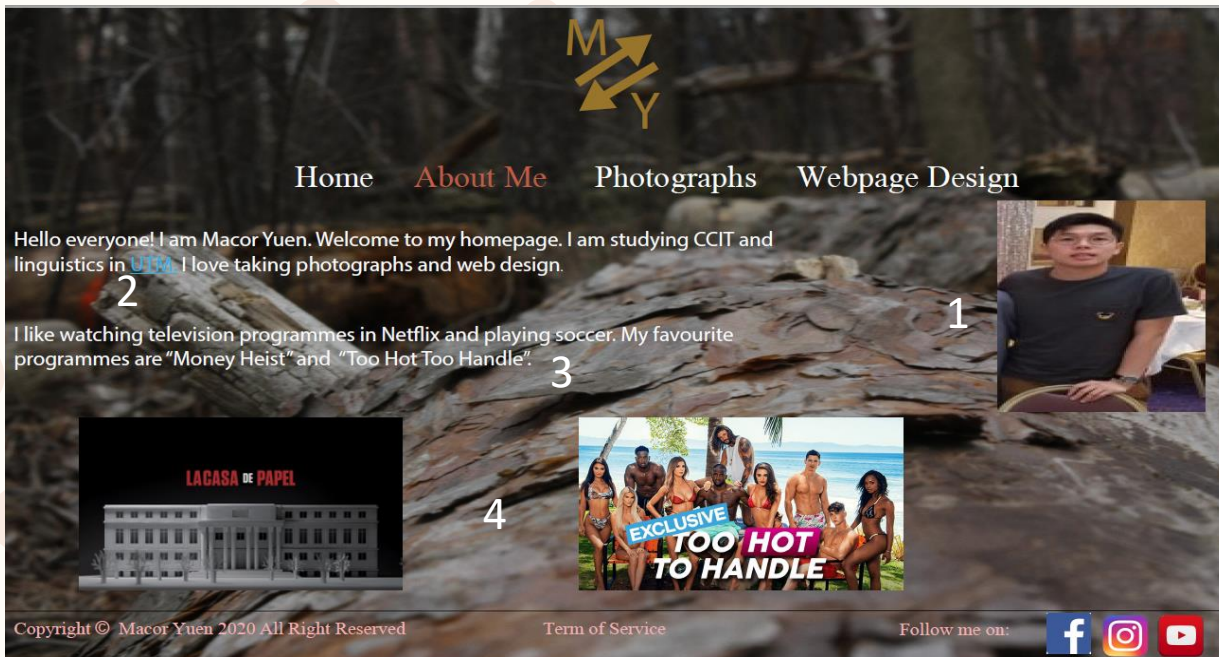

- Using white colour makes users easier to notice

3.) The social media icons cannot place in the same line with copyright and term of service

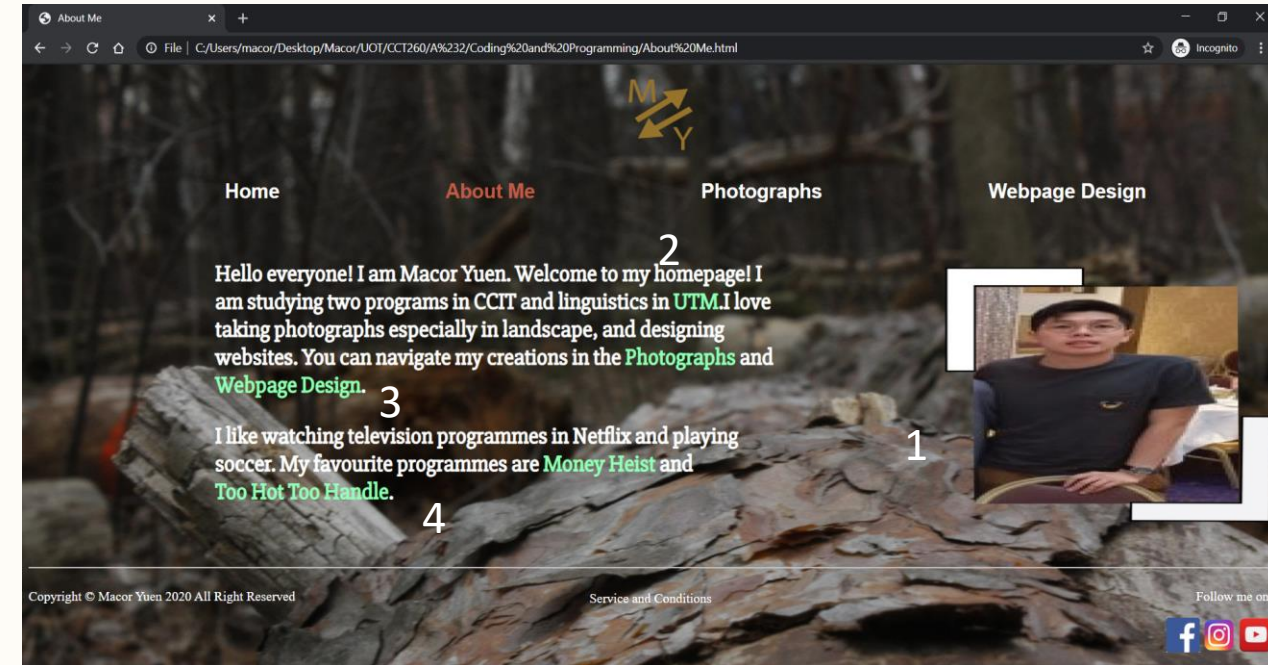

- Therefore, the icons have to place under the line of "Follow me on"

Differences between in Visual Design & Final Website

Pending Version

Final Version

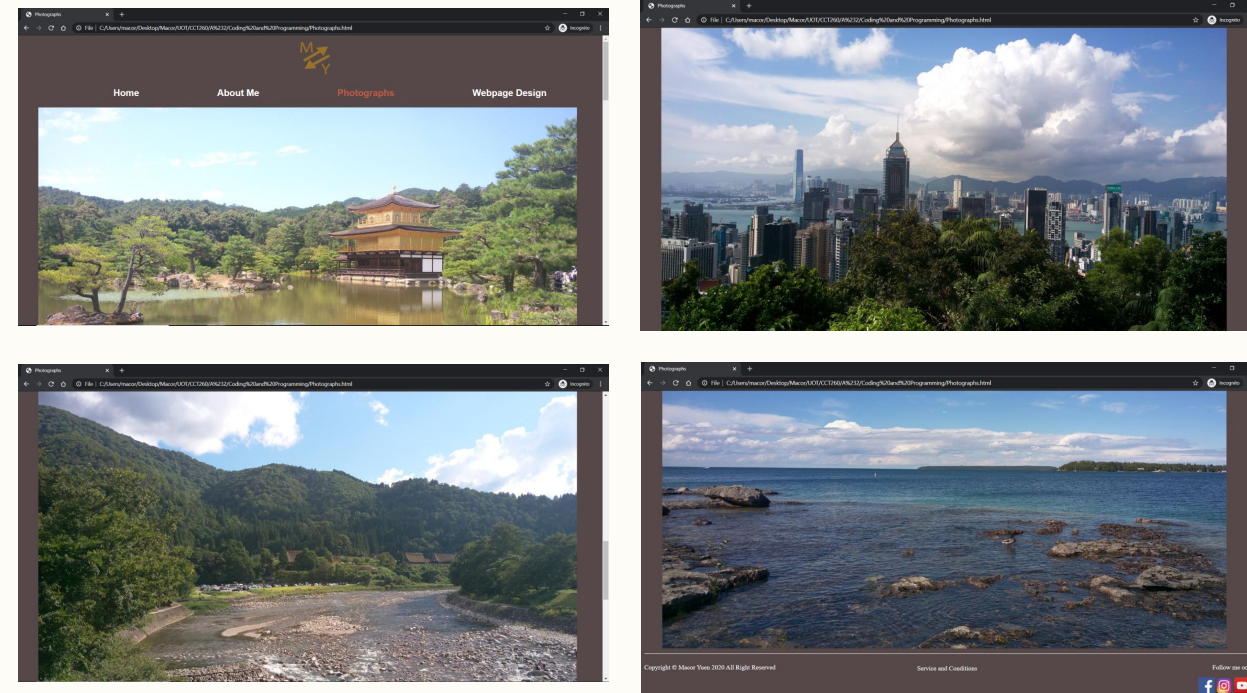

- 1.) A border added to my profile picture
 - It looks kind of unorganised without border
- 2.) The colour of any anchor and associative links change from blue with underline to green
 - Users know the links are clickable
- 3.) Photographs and Webpage Design become a link are clickable
 - Users can navigate directly to view creator's contents
- 4.) Photographs are deleted, and replaced by anchor links
 - Images are originally clickable and direct users to the official website of the programmes
 - Due to the appearance of webpage look kind of messy if images still exist

Differences between in Visual Design & Final Website

Pending Version

Final Version

1.) Dimension of the images change

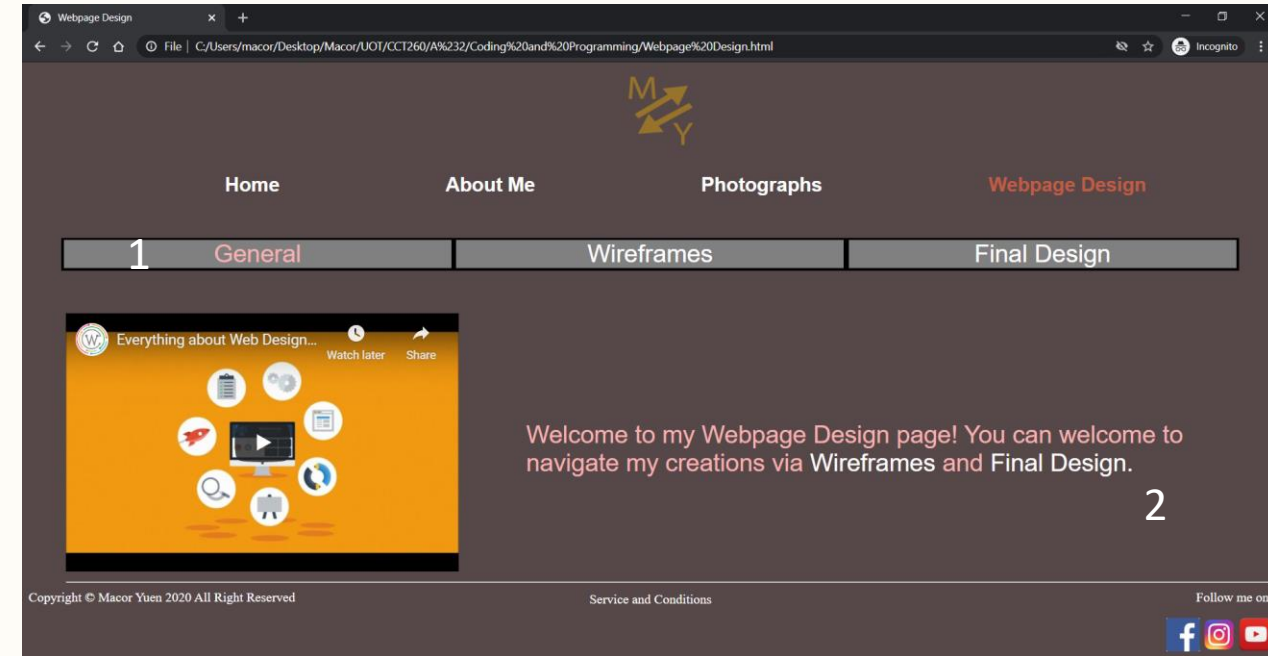

- Width: 333.312 px x 425.6298px (alarm clock image)
- Width: 465 px x 409px (pavilion image in the left)
- Width: 463.3333px x 418px (skyscraper image in the left)
- Width: 1400 px x 800px (all images in the right)
- Despite I want users see the full size of the images

Differences between in Visual Design & Final Website

Pending Version

Final Version

1.) Colours of local navigation change

- Background colour of local navigation change from transparent to grey
- Brown colour change to Pink for users to see where users current location

2.) Colour of anchor links and texts

- The text colour from white changes to pink
- The colour of anchor links remain white
